

Maplewood's Street Repair Plan

Current Street Conditions:

- 60%** of Maplewood streets are in good or excellent condition.
- 14%** of streets are in fair condition.
- 26%** of streets need immediate repair or are nearing life expectancy.

Did you know?
 Maplewood
 has **135 miles**
 of roads to maintain?

Repairs based on 5-year Capital Improvement Plan (CIP):

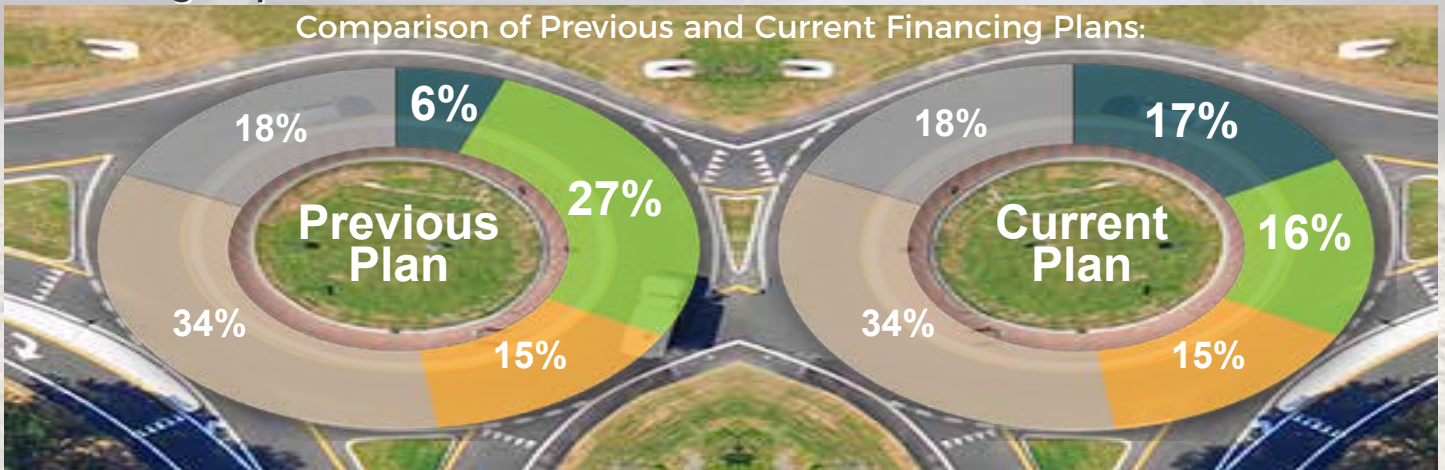

- Ensures best budgeting and construction planning
 - New projects are added annually
- To see a the entire list of Captial Improvement Plan projects. [visit - maplewoodmn.gov/CIP](http://maplewoodmn.gov/CIP)

How the City schedules projects:

*Each spring, staff patches & fills potholes until full repairs are made

Funding Repairs:

Special Assessments
 Utility Funds
 Intergovernmental Revenue
 Long-Term Debt
 Franchise Fee

More Emphasis on pay-as-you-go:

- More equitable; financially responsible funding model that:
- Cuts long-term borrowing from about 27% to 16% of project; lessens demand on property taxes.
 - Boosts up front funding from 6% to 17%; minimal gas/electric franchise increase

They're not all Maplewood Roads:

Some roads running through Maplewood, like White Bear Avenue or Century and Larpenteur Avenues, are owned by the State or County, who have jurisdiction over their repair.
